

It is Almost That Time Again!

As the year-end approaches, so does the opportunity to complete your dental work and take advantage of your 2010 insurance benefits. Insurance benefits **can not be carried from one year to the next.** So as of January 1, 2011, any **unused** insurance money is **gone, used or not.** You have given money to your insurance company that you will never get back. **UNLESS you use what is left before New Years Eve!**

Why not take advantage of those benefits and maximize your work by using the 2011 benefits in January and zero out your 2010 benefits before December end.

If you would like to see how to do just this, give our office a call we will be happy to show you how in doing so, you can *eliminate* in some cases your out of pocket expenditures.

Also, don't forget your teeth should be as sparkling white as the Holiday Season is bright.. *Take advantage of our whitening program.*

**Why not give the gift of a beautiful smile to someone special this year! Simply ask the receptionist for a gift certificate. We will even Gift-Wrap it for you!**

Give us a call at **(905) 882-8722** to schedule your appointment for your Dental Care.

We look forward to seeing you soon.

Sincerely,

Dr. Podolsky, Rosen and Staff
